

National Petrol Price Survey

December 22-23, 2014 to January 13-14, 2015

Research Department

1/20/2015

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

Executive Summary

During the period January 13-14, the gasoline prices at 188 of 204 outlets (92%) were observed. The prices were compared to those observed during the December 22-23, 2014 Petrol Survey. The price movements for each product were compared to the ex-refinery price movement from Petrojam.

- The average¹ pump price for E10 87 (J\$110.97/litre) and E10 90 (J\$118.02/litre) fell by approximately J\$6.35/litre (5.41%) and J\$6.22/litre (5.01%) – falling approximately J\$0.14 and J\$0.01 respectively more than the Petrojam announcement for both products did.
- The average³ pump price of Auto Diesel (J\$115.01/litre) decreased by 4.03% (J\$4.83/litre) – J\$0.32 more than the average state refinery’s billing price announcements.
- Ultra Low Sulphur Diesel (ULSD) also experienced a 4.02% (J\$5.10/litre) decrease in prices at the pump, selling for an average³ price of J\$121.76/litre- J\$0.69 more than Petrojam’s price change.
- Between 11% and 42% of the stations observed in all parishes reduced the price of E10-87 in line with Petrojam’s reduction, J\$6.21/litre. The exceptions were Kingston and Portland in which 70% and 50% of outlets respectively reduced prices in line with Petrojam.
- Between 12% and 33% of the stations observed in most parishes reduced their E10-90 price in line with Petrojam, J\$6.21/litre. Portland and Hanover were the exceptions, as 100% and 75% of outlets respectively reduced prices in line with Petrojam.
- Between 14% and 44% of stations observed in most parishes reduced their Auto Diesel price in line with Petrojam, J\$4.51/litre. The exceptions were Portland and St. Catherine in which 50% and 56% of outlets respectively reduced prices in line with Petrojam.
- Only 7 ULSD retailers in St. Andrew reduced prices of the product in line with Petrojam; none other observed in any other parish did similarly.
- Some 28% (51) of the stations observed dropped their E10-87 prices J\$6.21/litre or more, while only 26% (47) of these stations did the same for E10-90.
- Similarly, 38% (68) of these stations decreased their Auto diesel prices J\$4.51/litre or more.
- Of the 23 comparable stations observed by the CAC that normally sell ULSD, 7 stations (30%) dropped their prices J\$4.41/litre or more.

¹ Arithmetic Mean

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

The results show that retail prices have continued to fall. However, the majority of these prices have not been falling in line with Petrojam's price reduction. Additionally, the mark-ups gained by the retailers and their marketing companies continue to be higher than the national average.

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

Introduction

Between June 2014 and January 2015, world prices have fallen close to 60%². Local consumers have expressed the concern that they have not been benefitting from these reductions. In response, the Consumer Affairs Commission (CAC) has increased its surveillance of the industry to determine to what extent retailers and their marketing companies have been passing on price reductions to consumers.

During the period January 13-14, the gasoline prices at 188 of 204 outlets (92%) were observed. Of these observations, 1 open outlet (0.005%) was not selling E10-87, three (3 or 0.1%) open outlets were not selling E10 90, while 11 (5%) were not selling Auto-Diesel. During this survey, 23% (47) of outlets surveyed offered Ultra Low Sulphur Diesel (ULSD). Thirteen (6%) of these outlets did not have display boards, 8(4%) did not display prices on the boards; but only 1(0.5%) outlet's board prices differed from the prices displayed on the pumps. (See Appendix I)

International Benchmarks

Gasoline and Diesel

The benchmark used by the Petrojam Refinery is the United States Gulf Coast Prices (USGC)³. The Weekly Gasoline Regular and ULSD Spot Prices (US\$ /BBL) for the period under review were as follows:

Table 1 USGC Spot Prices (US\$ /BBL), January 2015

United States Gulf Coast (USGC)	Jan 2 nd 2015	Jan 8 th 2015
Gasoline Regular (US\$/Gallon)	1.29	1.2
ULSD ((US\$/Gallon)	1.59	1.56

Source: <http://www.eia.gov/dnav/pet/hist/LeafHandler.ashx?n=PET&s=rwtc&f=D>

To date in January 2015, published prices for both products displayed a downward trend. Gasoline products (unleaded regular, unleaded premium and leaded regular) moved from US\$1.29/gallon. at the beginning of the month to US\$1.20/gallon by January 8. To date, this represents an average US\$0.29/gallon (19%) decline below last month's prices; an annual point to point decline of US\$1.33/gal (52%) ; and a Financial Year To Date (FYTD) decline of US\$1.59/gallon (57%).

³ Petrojam (2014), "Petrojam limited's- Gas prices explained", Retrieved December 22, 2014, from <http://www.petrojam.com/press-centre/news/04-2013/petrojam-limiteds-gas-prices-explained>

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

The ULSD USGC prices moved from US\$1.59/gal. at the beginning of the month to US\$1.567/gal. by January 8. To date, this represents an average US\$0.32/gal (17%) decline below last month's prices; an annual point to point decline of US\$1.37/gal (47%); and a Financial Year To Date (FYTD) decline of US\$1.39/gal. (47%).

PETROJAM REFINERY BILLING PRICE⁴ OBSERVATIONS vs. CAC PETROL SURVEYS: DECEMBER 2014 AND JANUARY 2015

- Petrojam made three (3) price announcements between December 18, 2014 January 8, 2015 (See Appendix II)
- By January 8, 2015 the, ex-refinery price for all products experienced price reductions between 4% and 6% (see Appendix III):
 - The refinery billing price (point to point) for both E10 87 (J\$91.93/litre) and E10 90 (J\$93.59/litre) decreased by J\$6.21, representing decreases of approximately 6% each.
 - The refinery billing price (point to point) for Auto Diesel Oil (J\$94.40/litre) recorded a decrease of approximately 4.56% (J\$4.51/litre).
 - Ultra Low Sulphur Diesel experienced a 4.17% (J\$4.41/litre) decrease in the announced price and was sold to the trade for J\$101.24/litre.
- By January 13-14, 2014 prices for all products decreased, with dollar values slightly higher than Petrojam's price reductions. (see Appendix III):
 - The average⁵ pump price for E10 87 (J\$110.97/litre) and E10 90 (J\$118.02/litre) fell by approximately J\$6.35/litre (5.41%) and J\$6.22/litre (5.01%) – falling approximately J\$0.14 and J\$0.01 respectively more than the Petrojam announcement for both products did.
 - The average³ pump price of Auto Diesel (J\$115.01/litre) decreased by 4.03% (J\$4.83/litre) – J\$0.32 more than the average state refinery's billing price announcements.
 - ULSD also experienced a 4.02% (J\$5.10/litre) decrease in prices at the pump, selling for an average³ price of J\$121.76/litre- J\$0.69 more than Petrojam's price change.

⁴ The Refinery Billing Price is the Ex-Refinery Price plus the Special Consumption Tax which increased by J\$8.50 effective April 27, 2009 by order of the Minister of Finance, the Hon. Audley Shaw. The SCT on 87, E10 87, 90 octane gasoline, Auto Diesel and ULSD are J\$16.1061 (87 & E10 87), J\$16.4792, J\$15.4145 and J\$15.41 respectively. Effective January 1, 2010, a 15% ad valorem tax was applied to the Refinery Billing Price. On April 14, 2011, the government reduced the ad valorem tax to 10%.

⁵ Arithmetic Mean

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

- Given the pump prices collected, the mark-ups observed continued to be higher than the normal⁶ national average(see Appendix IV):
 - E10 87 attracted an approximately 20.71% average (J\$19.04/litre) mark-up, compared to an approximately 26.11% average (J\$24.43/litre) for E10 90.
 - Auto-diesel attracted an average 21.83% (J\$20.61) mark-up at the pump.
 - Ultra Low Sulphur Diesel attracted an average 20.27% (J\$20.52) mark-up at the pump.
 - These mark-ups are notably higher than normally⁷ observed in the past: 12% for E10 87, 16% for E10 90, 13% for Auto-diesel, and 12% for ULSD.
 - It was also observed that the highest pump price for E10 87 (J\$148.50/litre), E10 90 (J\$149.70/litre) and Auto Diesel (J\$149.60/litre) were found in Portland; the lowest prices for E10 87 (J\$109.80/litre) and Auto Diesel (J\$109.80/litre) were observed in St. Thomas, while the lowest E10 90 (J\$113.80/litre) price was observed in Kingston/St. Andrew.
- The price movements Financial Year to Date continue to show decreases for all products (see Appendix V):
 - In January 2015, the average pump price for E10 87 was found to be 20.84% (J\$29.21/litre) less than the April 2014 price, compared to 19.69% (J\$28.94/litre) less for E10 90.
 - Auto-Diesel prices were approximately 19.61% less, falling J\$28.05/litre.
 - ULSD prices were 17.43% or J\$25.69/litre less.
- Compared to January 2014, in January 2015, consumers paid 14% (J\$18.13/litre) less for E10 87, 13% (J\$17.98/litre) less for E10 90, 17% (J\$24.00/litre) less for Auto Diesel, and 14% (\$20.28/litre) less for ULSD. (See Appendix II)

Parish Analysis

- Only in Portland did the majority of stations decrease the price of all products in line with price reductions from Petrojam (See Appendix VI)
 - Between 11% and 42% of the stations observed in all parishes reduced the price of E10-87 in line with Petrojam's reduction, J\$6.21/litre, except for Kingston (70%) and Portland (50%).
 - Between 12% and 33% of the stations observed in most parishes reduced their E10-90 price in line with Petrojam, J\$6.21/litre, except for Portland (100%) and Hanover (75%)

⁶ ‘Normal’ refers to periods of relative stability in prices of crude oil on the global market

⁷ Normal refers to periods of relative stability within the global oil market.

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

- Between 14% and 44% of stations observed in most parishes reduced their Auto Diesel price in line with Petrojam, J\$4.51/litre, with the exception of Portland (50%) and St. Catherine (56%).
- Of the 47 observed retailers of ULSD in 10 parishes, only 7 ULSD retailers in St. Andrew reduced prices of the product in line with Petrojam; none other observed in any other parish did similarly.

Individual Petrol Stations Observed

- The prices observed at 180 stations on January 13-14, 2015 and December 22-23, 2014 were compared and showed that the majority of prices did not fall in line with Petrojam's price reduction over the period
 - Some 28% (51) of the stations observed dropped their E10-87 prices J\$6.21/litre or more, while only 26% (47) of these stations did the same for E10-90.
 - Similarly, 37% (66) of these stations decreased their Auto diesel prices J\$4.51/litre or more.
 - Of the 23 comparable stations observed by the CAC that normally sell ULSD, 7 stations (30%) dropped their prices J\$4.41/litre or more.
- The prices of the same 174 petrol stations were analysed to determine the mark-ups⁸ they experienced. The mark-ups observed remained higher than those obtained normally⁹. (See Appendix VIII)
 - Normally, the national average mark-up observed are 12% for E10 87, 16% for E10 90, 13% for Auto-diesel, and 12% for ULSD
 - For E10-90, the prices at 11 stations (6%) represented mark-ups of less than or equal to 16%, compared to the prices at 27 stations (15%) who gained less than or equal to 12%.
 - Approximately 13% (23 stations) of the prices for Auto-Diesel gained less than or equal to 13%.
 - Of the 47 stations observed by the CAC that normally sell USLD, 5 (11%) experienced mark-ups less than or equal 12%.

⁸ These mark-ups reflect the margin of the marketing companies and the individual stations where such arrangements apply. The CAC remains unaware of the actual share of the margins obtained by each.

⁹ 'Normally' refers to period of relative stability in the price of crude oil on the global market.

CAC PETROL PRICE SURVEY ANALYSIS AS AT JANUARY 2015

Conclusion

The results show that retail prices have continued to fall. However, the majority of these prices have not been falling in line with Petrojam's price reduction. Additionally, the mark-ups gained by the retailers and their marketing companies continue to be higher than the national average.
